## Conference Overview

This conference explores how Artificial Intelligence (AI) is transforming governance, economy, education, and society. It brings together scholars, policymakers, and professionals to promote ethical, inclusive, and sustainable AI-driven development.

## Who Should Attend?

- ♦ Policy makers and Government Agencies
- ♦ AI Developers and Tech Innovators
- ♦ NGOs and Development Practitioners
- ♦ Academics and Researchers
- ♦ Cultural and Creative Industry Professionals
- ♦ Students and Early-Career Scholars

## CONFERENCE SUB-THEME

1. AI and Policy Formulation in Governance
2. Ethical Considerations in AI Applications
3. AI in Financial Inclusion and Economic Development
4. AI and Cybersecurity Challenges
5. AI and Sustainable Development Goals (SDGs)
6. AI in Public Sector Reforms
7. AI-driven Research Methodologies
8. AI in Media and Communication
9. AI and Indigenous Knowledge Systems
10. AI and Human Rights Advocacy
11. AI in Conflict Resolution and Peacebuilding
12. AI's Impact on Labor Markets and Employment
13. AI-driven Smart Cities and Urban Development
14. AI in Education and Digital Learning
15. AI and Data Privacy Regulations
16. AI in Health, Agriculture, and Environment
17. AI in Library and Information Management
18. AI and Psychological Well-being

## Conference Objectives

- ♦ Examine the implications of AI for Social Sciences and Humanities research
- ♦ Explore AI-driven approaches to sustainable development
- ♦ Address ethical, cultural, and societal concerns in AI adoption
- ♦ Promote collaboration between academia, industry, and government
- ♦ Showcase innovative AI solutions for developing societies

**EVENT DATE:**  
**1st - 4th**  
**June, 2026**
